Guided by its commitment, solidarity, authenticity and responsible leadership, the mission of the Xarxa de Dones is to involve women with disabilities in their integration into the labour market, now and in the future.

## About Us

We are an association committed to the integration of women with disabilities, formed by psychologists, companies and volunteers, to achieve real gender equality.

**Our employees are essential to fulfilling the Xarxa's mission. Their commitment is the strength that allows us to continue innovating. Their commitment allows us to normalise a future and a present in which they can feel fulfilled.**

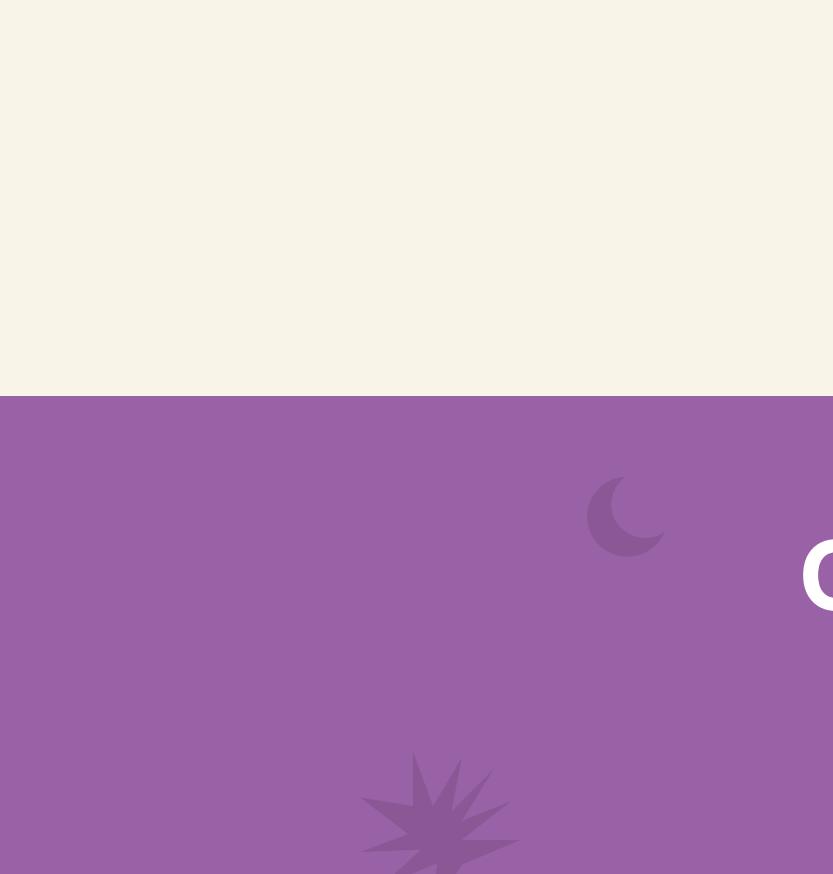

## Partners

As an association we have great partners who help us to reach unparalleled heights, thanks to all of them.

## Valencian Action Plan for mental health, drug dependence and drug addiction.

Today we have gathered all the participants in the *Palau de la Generalitat* where we could know and learn a lot about *mental health* and *how to take care of it*.

today we attended the Valencian Action Plan for mental health, drug addictions and addictive behaviours, where we learned a lot with all our colleagues about addictions and mental health, how important it is and how to take care of it.

It was very interesting and it made us think about the talks and all the guests we met in this, without a doubt an unforgettable experience.
